

FINE

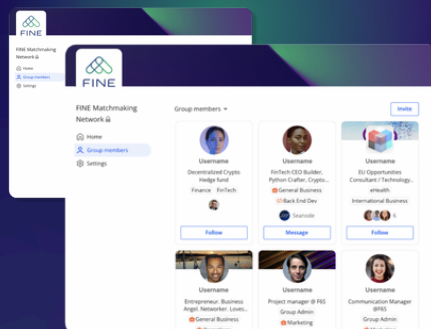

Fintech Investor
Network and
Ecosystem

The Fintech Investor Network and Ecosystem builds stronger connections among fintech networks

Our goal is to **encourage investors to collaborate and invest together** in fintech startups. The FINE approach will create a more vibrant investment environment, foster European-wide innovation, and help companies grow across borders.

Matchmaking Network

The **FINE Matchmaking Network** is open for experienced and new investors in 10 European countries to apply through the F6S Platform to **build cross-country connections and cooperation between fintech innovation ecosystems**. Through one-on-one meetings, engage in new business partnerships and cooperation deals!

Investor and Ecosystem Map

Important features of the **FINE KnowledgeBase**, the Investor and Ecosystem Maps, have the goal of **increasing the visibility and attractiveness** of the 10 European countries mapped for new investments and collaborations; they can open doors for more cross-border connectivity!

The **Investor Map** is a framework to unify European investors, collecting information such as the type of investment and the stage and approach of each company listed.

And the **Ecosystem Map** is a valuable tool for investors to explore the stakeholders, trends, policies, services, and events of the 10 countries mapped by the project.

Investor Academy

With curated courses, specialised articles for new and experienced investors, publications, this section of the FINE website is meant to **open your horizons and knowledge around finance, investment, and innovation.**

FINE Objectives

Improving funding opportunities in fintech

Facilitating inclusiveness and gender equality

Providing accessibility of knowledge about investment

Increasing access for new and experienced investors to local deal flows

Enhancing network connectivity and cooperation

Follow FINE to stay updated on the latest European Fintech insights
