11:20-11:30 Final remarks

Natalia Cardona

Project manager at F6S innovation

What is FINE?

The **Fintech Investor Network and Ecosystem** is building stronger connections among fintech networks, both locally and internationally.

Our goal is to **encourage investors to collaborate and invest together in fintech start-ups**. The FINE approach creates a more vibrant investment environment, fostering European-wide innovation, and helping companies grow across borders.

FINE aims to increase access to capital and investments in less-connected Fintech innovation ecosystems by building investment pipelines and screening methodologies to attract foreign investment.

What can we offer you?

The **FINE Matchmaking Platform** and **Slack Community** dynamic hubs connecting investors with diverse and promising ventures across the European continent.

The **Fintech Ambassador Network** is composed by a group of knowledgeable experts, to provide key insights to both local and foreign investors.

FINE Investor Academy is an online resource hub catering to diverse investor groups – newcomers, young investors, women, and minorities.

Ecosystem and Investor Map

The **Ecosystem Map** provides a broad overview of the fintech landscape in European countries with general trends and targeted key players.

And the **Investors Map** lists players in various European countries to create a full overview of the investment ecosystem and its most important companies and investment types.
